NK

Nasim Kamgar
UX/UI & Graphic Designer

PROFILE

I am a highly motivated, creative thinker who has the ability to take ideas from concept to wireframe to prototype to production that cultivate and capture people's attention. I love designing interactions and enjoy solving user problems that makes technology feel effortless.

I started my journey in graphic design with focusing on branding, identity and advertising layouts. I like to combine my skills to bring out the most creative and unique visual solution.
